

## **BAD GIRLS PARTY RULES**

If you cannot abide by these rules, please do not attend.

The Party will be supervised by Dungeon Monitors and their decision is final.

There is no appeal process.

1. Respect others and their property. Do not touch toys or persons, interrupt or enter a scene without clear permission. Remember, NO means NO.
2. In order not to disturb scenes in progress, observers are reminded to keep voices down and maintain reasonable distance from scenes. Please restrict socializing and conversation to the social areas. If scene participants or DM request more distance or quiet, please comply immediately.
3. Please clean up after yourself, and leave play areas as you found them. Drop cloths are required for blood and wax scenes or otherwise messy play. Wear gloves while wiping down furniture with provided disinfectant and paper towels. Dispose of sharps in provided sharps containers; paper towels and gloves belong in the trash. Do not use spray solutions.
4. Talk to a DM before doing potentially extreme or disruptive scenes such as those involving fire, wax, excessive screaming or resistance play.
5. No show or exposing of guns whether real or realistic; no gun play of any kind.
6. Offering or agreeing to perform or performing any act of prostitution or solicitation of prostitution or solicitation of prostitution is strictly forbidden.
7. Smoking is prohibited anywhere inside the building.
8. No alcoholic beverages or illegal substances are permitted on the premises. If a DM deems that you are intoxicated, you will be asked to leave and there will be no refund.
9. No cameras or video equipment or recording devices of any kind are allowed when directed at general party space. Photographic devices are permitted however for the purpose of documenting work as long as any scene participant has expressly agreed to be photographed.
10. You are responsible for your own choices regarding safer sex. BadGirls has provided safer sex supplies and strongly encourages you to use them, especially in the presence of bodily fluids.
